

Jill Delaney-Shal

Senior Consultant & Facilitator

Dayton, OH

Jill is an exceptional senior leader who recruits, builds, mentors, trains, and leads high performance teams that are laser focused on delivering business value through Information Technology. She is passionate about building technology solutions to revolutionize and transform.

Currently in the defense industry at JJR Solutions, Jill is the Senior Vice President Leader for the Client Experience organization, responsible for earning client loyalty, scaling service delivery, and expanding JJR's presence within existing markets. She applies forward-thinking management best practices to facilitate exceptional client experience, service delivery, and project operations. She leads with intention to cultivate engagement, grow capabilities, and prepare the workforce for sustained growth. Jill is as a member of JJR's Strategic Leadership Team and proactively advises on matters that affect company objectives.

Prior to JJR Solutions, Jill was the Senior Director of Global Content Systems Development at LexisNexis leading an organization of 300+ software engineers, business analysts, and quality assurance testers across the U.S., Asia, Europe, and Australia that developed online legal research tools. She was responsible for strategic software development initiatives totaling over \$50M over five years.

In her free time, Jill participates in professional organizations with a focus on the defense industry and technology. She volunteers and serves on non-profit boards that support improvement in community health and well-being.
